Education

VIT Bhopal University

2024 – 2026

Master of Computer Applications — CGPA: 9.18

National Post Graduate College, Lucknow

2019 – 2022

Bachelor of Science — CGPA: 6.9

Projects

LynxApp — *React.js, Node.js, Express.js, MongoDB, JWT, Multer, Cloudinary, Vercel, Render*

- Developed and managed a full-stack social platform for college students supporting secure authentication, dynamic posting, and college-based engagement, and attained a 100% score on Google PageSpeed Insights for desktop best practices.
- Implemented an AI-powered club recommendation system using NLP embeddings (Xenova/all-MiniLM-L6-v2) and cosine similarity, achieving 92% match accuracy.
- 🌐 GitHub Repository

CodeMate — *React.js, Node.js, Express.js, Google Gemini API, Vercel, Render*

- Built an AI-powered code visualizer and review tool that uses the Google Gemini API to generate AI-driven code reviews and step-by-step algorithm visualizations.
- Engineered an advanced prompt system with a multi-rule format that improved visualization accuracy by 35% and reduced markdown formatting errors by 40%.
- Designed a resilient backend with strict JSON validation and error handling, ensuring 100% reliable API responses in testing.
- 🌐 GitHub Repository

OM Electricals (Business Website) — *React.js, Tailwind CSS, AWS S3*

- Built and deployed a scalable business website on AWS S3 with 99.9% uptime, reducing maintenance overhead and ensuring continuous availability.
- Leveraged serverless architecture for minimal maintenance and improved scalability.
- 🌐 GitHub Repository

Experience

Globentix Technologies

Oct 2025 – Present

Full Stack Developer Intern

- Designed and engineered a full-stack Email Verification System using React, Node.js, and PostgreSQL to validate single, bulk, and domain-level emails with 95%+ accuracy.
- Implemented an intuitive user dashboard and verification workflow, reducing manual validation time by 70%.

Technical Skills

Programming Languages: Java, Python, JavaScript

Frontend: React.js, CSS, Tailwind CSS, Vite

Backend: Node.js, Express.js, Spring Boot (Familiar), RESTful APIs

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, CI/CD (Render, Vercel)

Database: MongoDB, MySQL

APIs & Tools: Google Gemini API, Axios, JWT, Multer, Cloudinary, EmailJS

Developer Tools: GitHub, VS Code, IntelliJ IDEA, Postman

Certificates

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

- Issued by Oracle

Learn Node.js Course

- Issued by Codecademy
